CAPABILITY STATEMENT

Awesoon Technologies Inc.

Standard, documented systems for public programs

ray.rasouli@awesoontechnologies.com
awesoon.com
Vancouver, British Columbia, Canada

WHO WE ARE

Awesoon Technologies Inc. is an owner-led systems firm in Vancouver, BC. We standardize and automate workflows, build custom software, and deliver design and advertising as repeatable systems. Every engagement ends with documentation the buyer's team owns.

CORE CAPABILITIES

- ERP and CRM implementation, configuration and support
- Custom applications, APIs and integrations
- Process mapping, systems review and vendor management
- Design and advertising delivered as repeatable systems

CATEGORIES WE BID UNDER

IT expert services	Systems review, process mapping and vendor management
ERP or database applications programming services	ERP implementation, configuration and data migration
CRM software	CRM setup, configuration and support
Application programming services	Custom applications and internal tools
Client or server programming services	APIs, integrations and back-end services
Database design and management	Database design, cleanup and reporting
Graphical user interface development	Interface design and front-end build
Game and entertainment software maintenance	Live operations and maintenance for games
Permanent IT developers (through a vetted staffing partner)	Vetted developers, with Ray accountable for the match
Advertising campaign and production services	Campaign planning and production as a repeatable system
Brand marketing materials	Brand guides, playbooks and templates
Art and graphics	Art direction, illustration and graphics

HOW WE WORK

Subcontract to your prime
We join a registered prime's team for the IT, ERP or creative scope, under their contract and reporting.

Direct small bids
For a contained IT expert services or ERP and CRM scope, we bid directly and the owner runs the work.

Documentation your team owns
Process maps, configuration notes and runbooks are delivered with the work, so your staff can run it after we leave.
